BEST, Board of European Students of Technology, is a constantly growing non-profit and non-political organization. Since 1989 we provide communication, cooperation and exchange possibilities for students all over Europe. 86 Local BEST Groups (LBGs) in over 30 countries are creating a growing, well organized, powerful, young and innovative student network. Our goal is helping European Students of Technology to become more internationally minded, by reaching a better understanding of European cultures and developing capacities to work on an international basis. The mean method to reach this goal is organizing academic courses during the whole year. All 86 local BEST groups, each connected to a university, organize academic courses for about 25 students from all over Europe.

BeSenior presents a distinguished opportunity for engineering students and professionals across Europe to connect. This event stands as a testament to the power of intercultural exchange, offering participants a unique platform to engage in international projects and gain insightful exposure to diverse working methodologies from various countries. Through **BeSenior**, attendees are empowered to broaden their professional networks, enhance their collaborative skills, and deepen their understanding of engineering practices on a global scale, thereby fostering a more integrated and innovative engineering community
